

# Sorption of Colloids, Organics, and Metals onto Gas-Water Interfaces

(55396-CA)

Jiamin Wan, Tetsu Tokunaga, Fred Gadelle, Jenny Yang, Adriame Carr, Keith Olson  
Lawrence Berkeley National Laboratory, Berkeley, California

Introduction

Method

Verification of the Bubble Column Method

Vadose Zone Implications

Examples of Partition Coefficients ( $k$ ),  
Which Quantify Colloid Sorption at Air-Water Interfaces

Planned Activities, Publication, Conclusions, Acknowledgments
